*1: Certain models may become compatible by updating the firmware. *2: Modeling flash is possible by pressing the test flash button with the models without depth-of-field preview button (by Custom Function setting). *3: Possible with the AI.B Full-auto distance measurement start button.

*4: Not supporting the [PFn-08-0] operation by double-clicking of the shutter button, but the operation possible with [PFn-08-1: AUTO]. *5 : Auto bounce will operate only when "Depth-of-field preview" function is assigned to the M-Fn button or movie shooting button.
